

# WhatsNext Vision Motors: Project Report

---

Salesforce Developer project | Report Date: October 2026

## 1. Introduction

**Overview:** WhatsNext Vision Motors, a pioneering force in the automotive industry, is dedicated to transforming the mobility sector. This Salesforce CRM project automates and streamlines the customer ordering process, inventory validation, dealer assignment, and test drive scheduling.

**Purpose:**

- Centralize vehicle, dealer, customer, and order data in a single CRM.
- Automate workflows to assign orders to the nearest dealer based on customer location.
- Prevent order placement for vehicles that are out of stock.
- Send automated email reminders for scheduled test drives.
- Run scheduled batch jobs to update pending orders when stock becomes available.

## 2. Ideation Phase

### 2.1 Problem Statements

| PS   | Role      | I am trying to...          | But...                        | Because...                    | Feel        |
|------|-----------|----------------------------|-------------------------------|-------------------------------|-------------|
| PS-1 | Customer  | Place a car order          | I don't know if it's in stock | No real-time inventory checks | Frustrated  |
| PS-2 | Customer  | Find the nearest dealer    | I have to search manually     | No location-based routing     | Annoyed     |
| PS-3 | Admin     | Update bulk pending orders | It requires manual checks     | No automated batch processing | Overwhelmed |
| PS-4 | Sales Rep | Ensure test drives happen  | Customers forget appointments | No automated reminders        | Concerned   |

### 3. Requirement Analysis

#### 3.1 Functional Requirements

| FR   | Requirement                              | Implemented by                                               |
|------|------------------------------------------|--------------------------------------------------------------|
| FR-1 | Store vehicle, stock, and dealer details | Vehicle__c, Vehicle_Dealer__c                                |
| FR-2 | Track customers, orders, test drives     | Vehicle_Customer__c, Vehicle_Order__c, Vehicle_Test_Drive__c |
| FR-3 | Prevent out-of-stock order placement     | Apex Trigger (VehicleOrderTrigger)                           |
| FR-4 | Auto-assign orders to nearest dealer     | Record-Triggered Flow (Auto Assign Dealer)                   |
| FR-5 | Automated test drive email reminders     | Record-Triggered Flow (Scheduled Path)                       |
| FR-6 | Update pending orders based on stock     | Batch Apex (VehicleOrderBatch) & Schedulable Apex            |

### 4. Project Design

#### 4.1 Architecture & Data Model

**App:** WhatNext Vision Motors (Lightning App)

**Objects:** Vehicle\_\_c, Vehicle\_Dealer\_\_c, Vehicle\_Customer\_\_c, Vehicle\_Order\_\_c, Vehicle\_Test\_Drive\_\_c, Vehicle\_Service\_Request\_\_c.

**Automation:** Salesforce Flows handle location-based dealer assignments and scheduled test-drive reminders. Apex Triggers manage stock validation to prevent ordering unavailable vehicles and handle automatic inventory deduction. Batch and Scheduled Apex jobs routinely check inventory to update pending bulk orders to 'Confirmed' status.

### 5. Conclusion

The implementation of this Salesforce CRM project at WhatsNext Vision Motors creates a highly efficient, automated ordering system. By resolving inventory conflicts instantly, assigning dealers based on proximity, and automating customer communications, the company significantly reduces administrative burdens, allowing staff to focus on strategic market demands and maximizing customer satisfaction.

## 6. Implementation Screenshots

### Developer Account Setup

The screenshot shows the Salesforce Developer Edition sign-up page. The left side has a blue background with white text: "Build for the Agentic Enterprise. Sign up for your Developer Edition." Below this, it says "The entire Salesforce platform - exposed as APIs, MCP tools, and CLI commands. Build apps, ship agents, and let coding agents do the heavy lifting with Salesforce Headless 360." There are four bullet points: "Build AI agents with Agentforce, grounded in your data with Data 360", "Connect Claude Code, Cursor, or Codex to your org with hosted MCP", "Build in the browser with the Agentforce Vibes IDE - no setup required", and "Drag-and-drop when you want it, Apex when you need it". The right side is a white form titled "Sign up for your Developer Edition" with the subtitle "A free Salesforce Platform environment with Agentforce and Data 360". The form fields are: First name (Shivaranjanan), Last name (B T), Job title (Developer), Company (AAMEC), Country/region (India), and Work email (tgas10476@gmail.com). There is a checkbox for "I agree to the Main Services Agreement - Developer Services, Salesforce Program Agreement, and API Terms of Service". Below the form, there is a paragraph about the free trial and a link to the Privacy Statement.

**Build for the Agentic Enterprise. Sign up for your Developer Edition.**

The entire Salesforce platform - exposed as APIs, MCP tools, and CLI commands. Build apps, ship agents, and let coding agents do the heavy lifting with Salesforce Headless 360.

- ✓ Build AI agents with Agentforce, grounded in your data with Data 360
- ✓ Connect Claude Code, Cursor, or Codex to your org with hosted MCP
- ✓ Build in the browser with the Agentforce Vibes IDE - no setup required
- ✓ Drag-and-drop when you want it, Apex when you need it

**Sign up for your Developer Edition**

A free Salesforce Platform environment with Agentforce and Data 360

First name: Shivaranjanan ✓ Last name: B T ✓

Job title: Developer ✓ Company: AAMEC ✓

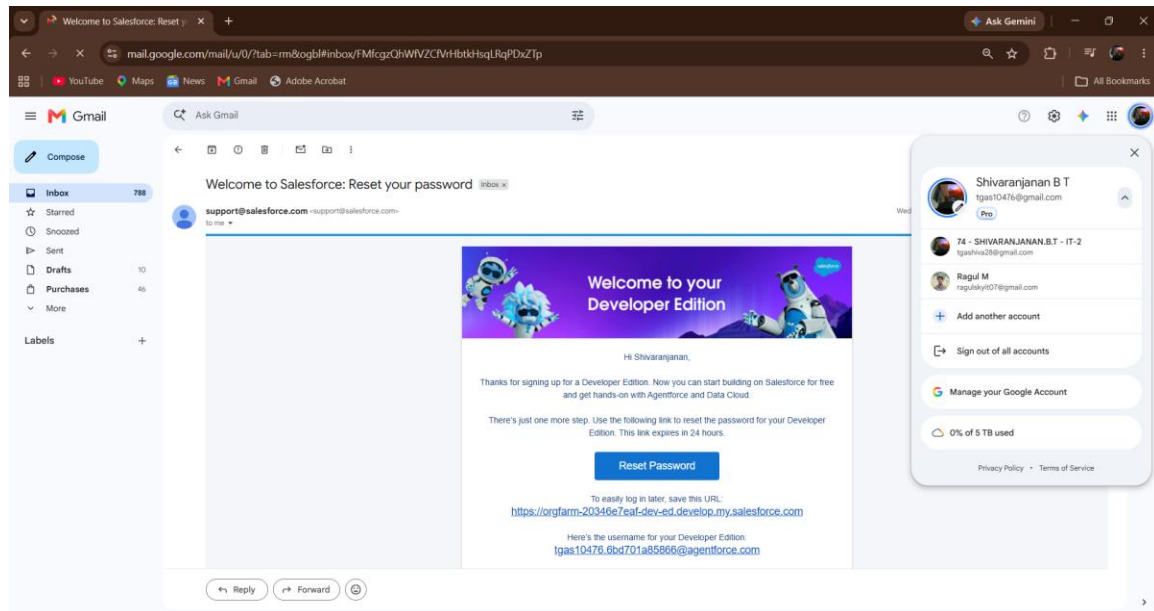

Country/region: India ✓ Work email: tgas10476@gmail.com ✓

☒ I agree to the [Main Services Agreement - Developer Services](#), [Salesforce Program Agreement](#), and [API Terms of Service](#)

Your free trial may be provisioned on or migrated to Hyperforce, Salesforce's public cloud infrastructure.

I acknowledge, as described in the Developer Documentation: (1) the Developer Edition includes autonomous and other generative AI features; and (2) Salesforce may limit use of those features and the org, and may terminate any org that has been inactive for 45 days.

We value your privacy. To learn more, visit our [Privacy Statement](#).
